Introduction

Guildford and Kalamunda Districts Swimming Club (GKDSC) aims to provide all members every opportunity to achieve their swimming potential, irrespective of ethnicity, age, disability, gender or background. The club aims to be an inclusive swimming club and actively seeks to remove barriers to participation that can hinder or exclude individuals from participating in the sport of swimming.

Facilities

GKDSC provides facilities that are accessible for all athletes within the club. These include accessible parking, wheelchair access to pool and facilities, accessible change rooms and facilities, slip resistant floor and ground surfaces and ramps to all levels.

Communication

Communication from the club is visible and easy to read for all members, and social activities organised by the club are open to all members, including those with a disability and their carers.

Goals

To provide a swimming environment that promotes access and inclusion and provides opportunities for participation for all members of the community.

By doing this GKDSC aims to build a sustainable and prosperous future for the club, while building a stronger sport for all West Australians.
